Washing Instructions

The club kit garments are handmade and treated with the greatest care from start to finish. Treating your kit in the same way will prolong its life.

Once an item has been worn we recommend washing it immediately. Sweat and dirt can break down the technical structures in your garments.

We recommend washing all kit on a 30°C degree wash on the lowest possible spin with all garments zipped up.

Leave all garments to drip dry and use only a biodegradable (non-biological) detergent and avoid use of fabric softeners as this can also break down technical fibres.

Most importantly please do not wash your clothing with any garments containing Velcro as this will damage other garments during the washing process and make sure all zips are fully fastened.
